23 OVERTURE SERVICES, INC., a

25 Plaintiff,

26 vs.

27 GOOGLE INC., a California Corporation,

28 Defendant.

No. C02-01991 CRB

PLAINTIFF OVERTURE'S  
OBJECTIONS AND RESPONSE TO  
DEFENDANT GOOGLE INC.'S  
SECOND SET OF INTERROGATORIES  
(NOS. 7-8)

29 Pursuant to Federal Rules of Civil Procedure 33, Plaintiff Overture Services, Inc.

30 ("Overture") hereby responds to Defendant Google Inc.'s ("Google") Second Set of  
31 Interrogatories.

## **GENERAL OBJECTIONS**

The General Objections set forth in Overture's Objections and Response to Google Inc.'s First Set of Interrogatories (Nos. 1-6) are hereby incorporated by reference.

Overture hereby incorporates each and every one of these General Objections into its responses set forth below. A specific response may repeat a general objection for emphasis or for some other reason. The failure to include a general objection in any specific response does not waive any general objection to that request.

Without waiving these General Objections, Overture responds to Google's Second Set of Interrogatories as follows:

## RESPONSES

**INTERROGATORY NO. 7:**

Identify all attorneys who participated in the prosecution of the '361 patent, including but not limited to all attorneys who billed time in connection with the prosecution of the patent.

## **RESPONSE:**

Overture objects to this interrogatory as being vague in that the term "prosecution of the '361 patent" is not defined. Subject to the foregoing objection and the general objections, and to the extent that this interrogatory is understood, Overture identifies the following attorneys: James P. Naughton; John G. Rauch; and Elaine K. Lee.

**INTERROGATORY NO. 8:**

Identify all customers and potential customers of the COST-PER-CLICK SYSTEM, including but not limited to the name, address, and contact person at each company, firm, or entity that has purchased, been approached to purchase, or considered purchasing services in connection with the COST-PER-CLICK SYSTEM.

1     **RESPONSE:**

2                 Overture objects to this interrogatory as being vague and confusing in that the  
 3 terms "customers" and "potential customers" are vague and are not defined. Overture  
 4 also objects to this interrogatory as being vague and confusing in that it is not clear  
 5 which Overture system and what specific time frame are being referred to in the  
 6 definition of the term "COST-PER-CLICK SYSTEM." Overture further objects to this  
 7 interrogatory as being vague and confusing and calling for information not within the  
 8 possession, custody, or control of Overture in that this interrogatory seeks an  
 9 identification of "customers and potential customers . . . that . . . considered purchasing  
 10 services . . ." Subject to the foregoing objections and the general objections, and to  
 11 the extent that this interrogatory is understood, Overture responds that the advertisers,  
 12 or their predecessors, listed in the attached Exhibit 1 may have advertised with  
 13 Overture's cost-per-click beta search system on or before May 28, 1998.
